

Welcome to the new generation of ERGObaby products ...
for the Next Generation

New Generations vs ERGObaby Classic

NEW GENERATION 2

NEW GENERATION 1

CLASSIC

Elastic added to both sides of Sleeping Hood to better form to baby's head

D-rings have been removed, loops around D-rings no longer needed. The one D-ring is for personal use only.

Padded with 100% cotton batting and lining is 100% cotton poplin. Shaped with darts to create an accentuated pouch for baby to sit in.

Adjusts to smaller sizes (as little as 25")

Buckles are reinforced for extra security. Elastic safety loop reinforces buckle's security. Elastic at end of strap to roll up excess length.

Curved to conform around the shoulders with longer padding to adjust for longer torsos.

Newly designed, reinforced buckles. Elastic at the ends of web strap to roll up excess length.

Closed at the top with zipper access from the side. Small pocket for storage of Sleeping Hood.

Adjusters around the shoulder straps so as to keep stationary.

Sewn on the inside of the carrier

Sleeping Hood

Shaped like an actual hood with extensions built into the base of the hood to adapt to the growth of the baby. Made of two layers of lightweight cotton poplin (sheet material).

Hood Straps

Snap closure around D-rings

Body of Carrier

Padded with 100% cotton batting and lining is 100% cotton poplin. Shaped with darts to create an accentuated pouch for baby to sit in.

Waist Circumference

Adjusts to smaller sizes (as little as 25")

Waist Buckle and Belt

The 2" wide buckle is mounted on the padded waist belt. An elastic safety strap is sewn on the end of the waist belt. Safety/Comfort Belt discontinued.

Shoulder Straps

Curved to conform around the shoulders with longer padding to adjust for longer torsos.

Shoulder Strap Buckles

Side release buckles to make the hip carry position possible. Chest strap runners to prevent chest strap from being misplaced. Buckle is mounted on padding - Elastic safety strap is sewn on the end of the shoulder straps to assure a catch in the event the buckles release unwillingly.

Back Pocket

Closed at the top with zipper access from the side. Small pocket for storage of Sleeping Hood.

Chest Strap

Adjusters around the shoulder straps so as to keep stationary.

Care Instructions

Sewn on the inside of the carrier

Flat and triangular in shape, made of cotton canvas outside and cotton twill inside. Hood Extension Kit accessory bought separately, provided for child's growth.

Velcro closure around D-rings

100% Cotton Canvas outside and 100% Cotton Twill Lining. Pouch for baby is created out of the length of the carrier.

Adjusts as small as 27".

1.5" wide buckle with Safety/Comfort Belt

Straight

Has tension lock buckles that do not come apart.

Elastic opening at top for storage of Sleeping Hood.

Chest straps move freely on shoulder straps

machine wash & dry, gentle cycles
